Mama's Love

Donut Shaped Face Cover

\$14.50

The donut-shaped face cover was the biggest challenge:

- I have created a very functional design that will stretch and shape to the client's face just as the face cradle itself does.
- The cover is fitted with elastic around the outside to keep it in place, and has an appropriately generous fabric sleeve to fit down the center.
- It won't leave lines on the client's face, either!
