Full-Size Warm Bag

\$28.00

The "Warm Bag" Named by my toddlers, this full size warm bag takes 2 ½ pounds of (cheap long-grain) rice to be filled. Sore Muscles, Chills: Heat in the microwave for 2-3 minutes. Then wrap it around your shoulders, knee, wrist, back, or other troubled areas. Toddler tummy aches: Heat in the microwave for 2 minutes. Check it carefully against your own skin to make sure it isn't too hot, then drape over upset toddler tummies to soothe them back to sleep. Never use on an infant. Use common sense. Never over-heat the bag or your little one! Cold car seats: Heat in the microwave for 2-3 minutes. Place in the cold car seat WITHOUT the baby in it. Let it warm the seat for 5-10 minutes as you get everyone ready to go, then remove it before putting baby/toddler into their seat. If it has cooled to a gentle barely-warm, you can then drape it over little legs to keep them toasty. Care and Washing: Just empty, wash fabric in any cycle, dry, and refill! It is fine to reuse the rice if it still smells nice. If the warm bag has been used extensively and just doesn't seem to be getting as warm as it used to, then it's time for new rice.

Price includes shipping of an empty bag.
